

I am e-mailing You concerning the possible effect on K-LOVE radio by allowing Low Power FM broadcast service to take precedence over FM translator service. I am a financial contributor to K-LOVE radio and I am very concerned of the impact this might have on K-LOVE. I would be devastated if I couldn't get K-Love because it is the only radio station My children & I can listen too without worrying what we might hear. With radio stations like webn in Cincinnati that openly promote pornography, obscenity, and just rude behavior being the "norm" it is refreshing to have K-LOVE as an alternative.
